I am a video producer with experience in pre-production, production, and post-production. I have experience with Sony and Canon camera systems as well as experience with lighting in an interview setting as well as narrative film and experience editing in adobe premier.

## **Experience**

---

**AVO Communications Inc.**, April 2017

Production Assistant

I manned the main camera at open house at Alabama A&M, setting up the shot on the various speakers, following them with the camera as they spoke. Afterwards I helped take down all the equipment and packed it up.

**Charger Productions**, Spring 2017

Assistant Camera and Editor

I helped out in various positions on set of our short film "Brain Dead", mostly I ran sound and ran the camera when our cinematographer was not able to do so. In post I was responsible for ordering the shots, color correcting the film, and editing the audio.

**Downtown Rescue Mission**, Spring 2017

Director of Photography and Editor

I ran camera and sound for a documentary on the Downtown rescue Mission, choosing the locations to film and setting up the shots for the film. In post I was responsible for ordering the shots, color correcting the film, and editing the audio.
