

PROFILE

I am a film Production Assistant with over 26 years of Human Resource, contracts, insurance (liability and W/C), and fund raising. I am passionate to bring storytelling to life through filmmaking but also the process it takes behind to scenes to bring those stories to life.

My previous experience has been an AIDS fundraiser featuring Peter Freestone (PA to Freddie Mercury), scouting locations for films, initiating contracts between production companies and vendors, providing lighting, sound and videography to films, as well as providing motorhomes and porta potties to production base camps. Also, a volunteer for the Fairhope Film Festival and a current three-year film judge/previewer for two out of state film festivals totally 1,500 films annually.
