

Synergy Laboratories is a full-service diagnostic laboratory that utilizes a wide range of innovative platforms to improve patient care. Founded in 2015 by Brad Pitts and Brandon Biles, Synergy's mission is to ethically serve the healthcare sector and give healthcare providers quality service and accurate results. In recent years, Synergy has continued to invest in the latest technology to serve its ever-growing client base. Synergy Laboratories is a high-complexity CLIA and COLA certified lab that has become one of the largest COVID-19 testing facilities in the Southeast. To learn more, visit www.synergytesting.com. Inquiries: media@synergytesting.com

Synergy is partnered with Illumina Technologies (<https://www.illumina.com/>) and recently selected as Illumina Technologies' Global Center of Excellence for development and implementation of their complete "commercial" line of next generation sequencing equipment and automation giving Synergy a path to sequence up to 30,000 samples daily. Synergy is currently working with local county and state health departments to identify new mutations of the Covid-19 virus.

Synergy currently has a geographical footprint across the Southeast with ability to process samples across 48 states and licensed to process samples imported as well. Current list of customers includes:

- **20+ Hospitals (Gulf Coast / AL)**
- **SEC Athletics**
- **Disney Studios**
- **450+ Clinics**
- **100+ nursing homes (Southeast)**

Covid Testing Capabilities

- **Antibody Testing IGG / IGM**
- **PCR Testing on FDA Platforms**
 - o (Roche / Thermo Fisher) 10,000 per day capacity
- **NGS (Next-Generation Sequencing)**
 - o Illumina – up to 30,000 per day
- **Pool Testing** – Large population surveillance testing

Additional Test Offering

- **Chemistry**
- **Hematology**
- **Pathology**
- **Advanced Microbiology**
- **Molecular Diagnostics**
- **Cytology**
